Basic Information about Tbilisi and Georgia

Georgia is one of the ancient countries in the Caucasus Region. Georgia's geographic location has always had a large influence on its history as well as its economy. The Black Sea also encouraged commerce with many other lands.

Located on the southeastern edge of Europe, Georgia has been known for its lucrative east-west trade routes ensuring its position as an important transit road for global energy and trade projects.

Founded in the 5th century Tbilisi is the capital and the largest city of Georgia with a population of roughly 1.5 million inhabitants. History of Tbilisi is reflected in its architecture, which is a mix of medieval, classical, Soviet and modern structures.

Historically, Tbilisi has been home to people of diverse cultural, ethnic, and religious backgrounds, though it is overwhelmingly Eastern Orthodox Christian.

Georgia is host to an extensive variety of sights, unique cultural venues, museums, and other landmarks. Tbilisi is of particular interest because it is the political, cultural, and social heartbeat of Georgia. From Turkish Baths to bookstores, Tbilisi has something to offer to all of its visitors

Climate

Tbilisi is a fairly temperate city. Spring is usually wet and windy. Summertime tends to be hot and dry. Fall and winter are usually shorter seasons. In spite of this, winter can be snowy and icy, so it is important to bring warm clothes and good winter boots!

People

Georgians are kind and hospitable people. When going out with a Georgian, it will probably be somewhat difficult for you to pay for anything. Georgians are very proud of their culture and would love to hear that you like it, too. As thanks for their hospitality, tell them about the wonderful time that you have been having in Georgia so far! Also, if invited over to someone's house as a guest, be sure to bring some wine or sweets for dessert!

In Georgia, wine and celebration go hand in hand. Celebratory events often involve what is called "supra". The "supra" is a gathering of friends where people eat, drink and toast to many subjects. Some topics include: peace, the reason for the gathering, the host/hostess, and friends.

There are a few key rules to remember if you are attending a supra. First, you cannot drink until the toastmaster "Tamada" has made his toast and drinks. Once that is complete, usually following the order of the table, others will repeat the toast and drink.

Georgia has many beautiful churches and cathedrals. When visiting these places, please be sure to dress appropriately. More specifically, men should avoid wearing shorts and women should cover their heads when entering a church.

Food and Drink

On the subject of wine, the first traces of wine production (dating back to 6000 BC) were found in Georgia. During your time to Georgia, be sure to sample the many fine wines made from the over 500 varieties of grapes that are grown here.

Culture and Art

Georgian Language and Script

Georgian alphabet is one of the 14 existing alphabets in the world. It consists of 33 letters. Many scientists believe that Georgian alphabet was derived from one of the Semitic alphabets around 6th – 5th century BC. The alphabet has been modernized during centuries, but keeps the original roots. One Georgian historian informs us that Georgian script was created in the 3rd c. BC by Georgian King Parnavaz. The mosaic inscription in the Judean desert in Palestine is known as the oldest Georgian inscription ever found. It dates back to the 433 AD.

National Folk Music

The roots of the Georgian song can be sought in the third millennium BC that is confirmed by the archeological findings. Georgian folk music possesses the oldest tradition of polyphonic music in the world. Georgian music has a unique place in the history of world culture and was among the first on the list of Masterpieces of the Oral and Intangible Heritage of Humanity in 2001.

The Georgian song “Chakrulo” was sent into space on the Voyager mission by NASA in 1977. The Voyager Golden Record contains 116 images and a variety of natural sounds, musical selections from different cultures and eras, and spoken greetings in fifty-nine languages.

National Folk Dances

Georgian Dance is a celebration of life and of Georgia’s rich and diverse culture. Each dance portrays the characteristics of the region in which it originates. The costumes are different for every dance and resemble the clothing of the past in different regions of Georgia. Georgian dance owes a huge debt of gratitude to Iliko Sukhishvili and his wife Nino Ramishvili, (Sukhishvilebi) founders of the Georgian National Ballet in 1945. It is due to their efforts that Georgian national dancing and music have become known all over the world.
